

**Texte der Bilin-Sprache, von Leo Reinisch  
Leipzig 1883**

**Text of Blin Language by Leo Reinisch  
Leipzig 1883**

Text of Blin Language (322 pages) was written by Prof. Leo Reinisch in 1883. The main body of this book consists of historical traditions of Bogos and animal fables narrated by the Blin people themselves, and presented both in Blin and German languages. Such stories and fables are serving to the present Blin generation as a link to their past. At the end of the book, Leo Reinisch presented some Bible stories written in Blin, in the Ge'ez Script.

The animal fables in this book were recently revised by Tekie Alibekit and presented as part of his book called Blin Animal Fables and Riddles (*Blina Dgim H'yayitudi Unqurquradi*) 2007.

A replication of this book, which is restored in a form as close to the original one as possible is printed on demand and sold by some of the well-known international bookshops.
